with other fellow officers who might mentor you or be your best friend in college.

2) Leadership experience. Being an officer in SWE, one of the most well-organized club on campus, you will foster leadership skills which will help you achieve full potential in your future careers as engineers and leaders.

3) Aspire the future generation. Stimulating women in the engineering field is not an one-day job. UC Berkeley SWE is having a large impact on the future generation of women engineers. By being an officer, you are shaping the future of engineering.

## WHY SHOULD I APPLY TO BE A SWE OFFICER?

- By Sophia Liu

You might have been to many SWE events and met many cool SWE people, and now is the time to decide if you want to apply to be an officer for next semester. Here are the reasons why becoming a SWE officer has been one of my best decisions at UC Berkeley so far:

1) Heartwarming Friendship and Supportive Network. One of the missions of SWE is to foster mentoring, and the development of professional and personal networks. Through various social, inter-societal, and outreach events, you might have already felt the positive force brought by SWE. As an officer, you will even have more opportunity to meet leaders in the field and work
