

Turn inspiration into innovation! Join Boeing and be part of a diverse team that does amazing things. Here, you'll transform aerospace and see your ideas help make history.

We will be looking for a diverse group of UC-Berkeley students who have this vision when we arrive on campus (Sept 18 -20) for the Engineering Career Fair to interview students for a select number of positions and to seek out many candidates for future openings. Many of you have dreamed of working in aerospace or working on products and services that make a difference in our world. We have opportunities for nearly all engineering-related majors to help make those dreams a reality.

We will be interviewing for a select number of summer 2014 internships and entry level jobs starting December 2013 through June 2014. For those, we are specifically seeking undergraduate and graduate students with the following engineering majors:

- Electrical
- Mechanical
- Civil (especially Structural emphasis or interest)
- Software
- Computer
- Systems
- Manufacturing

With the following desired attributes:

- Strong academic performance (preferred GPA of 3.5 or above)
- Exceptional organizational and collaboration skills as demonstrated through leadership positions on teams and/or in student or civic organizations
- Strong technical experiences as demonstrated through technical projects, research or engineering internships
- Exceptional communication skills
- Interest and enthusiasm related to engineering, aerospace and a career with Boeing

Be specific on your resume about the qualifications you have that match the above Engineering majors and preferred background. Include specific examples where appropriate to ensure your skills and qualifications are clearly communicated to the interview selection team. U.S. Person Status is **required** for these opportunities.

Following campus interviews, selected students will be invited to Boeing's Matching Event where future employees will have direct input on their entry level position by engaging in open dialogue with managers and to provide preferences on a position that best suits their skills and interests, as well as Boeing's needs.

Apply by September 8th at <https://jobs.boeing.com/JobSeeker/JobSearch>

- Log in (or create a profile)
- Scroll to " Job Req #"
- Enter 13-1014861 for Internships or 13-1014864 for Entry Level positions
- Enter Event Code: Fall Campus 2013

Please visit us at the Boeing booth at the Engineering Career Fair if you miss the September 8th deadline or your major doesn't fit those listed above but you have a GPA of 3.0 or above.

If you have any questions, please feel free to contact me via email at nicole.a.doucette@boeing.com
Look forward to seeing you!
