The online world can be a scary place with spammers, scammers, phishers and miscreants lurking in every corner. Disaster looms nearby, threatening to destroy data and ruin innocent citizens.

This is where you come in, armed with the best technology available, the best support team anywhere and the know-how to get the job done. Barracuda Networks needs skilled engineers, analysts, managers and support personnel to fight the evil that lurks on the internet. Want to work in the cloud? No problem. Want to develop virtual systems? Absolutely. Want to use the hottest technology to defeat the bad guys? If so, we want you!
